## **OCBP Question-of-the-Week for The Worcester County Times**

**Last Week's Question:** I was walking on the beach last Friday morning and had the unexpected pleasure of seeing a seal being released into the ocean. I noticed that the National Aquarium and the Ocean City Beach Patrol were there. How can I find out more information about the seal and what I saw?

You had the rare opportunity to witness the release of a rehabilitated seal. His name is Guinness and he is a juvenile Grey seal that was injured and beached himself in Kitty Hawk, North Carolina. Jennifer Dittmar, Stranding Coordinator for the National Aquarium in Baltimore along with her team, and aquarium and local volunteers came to Ocean City to help release him after a three month rehabilitation in Baltimore. Guinness had a broken jaw and was severely malnourished when he was found. His jaw was surgically repaired at the National Aquarium, and Guinness recovered quickly gaining 30 pounds.

When Guinness was ready to be released the National Aquarium contacted the Beach Patrol who trains all of the Surf Rescue Technicians to assist with marine mammal rescue. The Ocean City Police Department helped escort the Aquarium Suburban that carried a crate to transport Guinness into town. Once in Ocean City, The Beach Patrol met the Aquarium staff and moved the crate to a Beach Patrol vehicle where he was driven down near the waters edge. Guinness was placed on the beach and gradually made his way to the ocean. The seal has a satellite transmitter affixed to his fur. The Baltimore Aquarium will monitor Guinness daily. They will be able to track his location and learn more about the grey seal population. If anyone would like to track the progress, you can log on to [www.aqua.org](http://www.aqua.org) and click on the Marine Mammal Rescue Program and then animal tracking. Here you can learn more and view pictures of the rehabilitation process and track his travels.

The Beach Patrol and the National Aquarium advises that when beach patrons see a seal or any marine animal on the beach they should keep their distance for various reasons. Wild animals are dangerous and although seals appear to be cute, they have very sharp teeth and will defend themselves by biting. Additionally they may carry diseases that may affect humans. Sometimes seals come up onto land when they are sick or injured. If this occurs while the Beach Patrol is on duty, the Surf Rescue Technician has been trained to assess the situation and make contact with the appropriate agencies. However, if the Beach Patrol is off duty, Dittmar said anyone who sees an animal on the beach should report it to the Ocean City Police or the Maryland Department of Natural Resources Hotline (1-800-628-9944). There are laws that protect seals, along with other marine mammals including dolphins, porpoises, and sea turtles both on land and in the water. The Marine Mammal Protection Act requires people to stay at least 100 yards away from any of these animals on the beach.

**This Week's Question:** I notice the Lifeguards make everybody get out of the ocean before they leave but people go back in. Why is that?

The beach patrol has known of, or been involved with dozens of drownings and near drownings that have occurred outside our 10:00 – 5:30 “Duty” hours ( over 97% of all water related deaths in Ocean City in the past 80 years have occurred while the Ocean City Beach Patrol is off duty). The single, strongest message that we try to impress on people is that they should stay out of the ocean when the lifeguards are not on duty. Many times we have been involved in cases where, if this simple rule had been followed, lives and families would not have been scarred by such a preventable tragedy, the death of a loved one. Clearing the water at the end of our shift may seem routine, but we never take the goal of this policy lightly. Before we started the policy of clearing the water of swimmers at 5:25, it was very possible that a swimmer could have entered the water while guards were on duty, only to turn around and find the stands empty and pulled back for the night. In most cases this would not be a problem. However, if the swimmer were to become caught in a rip current, the situation could quickly take a tragic turn, despite their intentions to swim only under the watchful eyes of the beach patrol. In contrast, by pulling everyone out of the ocean before we leave the beach, we know that those who enter the water during unguarded hours are taking that risk knowingly. We continue our efforts to educate the public, warning them of the dangers of swimming on unguarded beaches, and that we make sure people leave the ocean before we pull our lifeguard stands back and cross over the dune for the night.

Hence our slogan, “Keep your feet in the sand until the lifeguards in the stand”. Heeding this simple warning could save a life, YOURS!

### **OCBP License Plates**

Listed below are the guidelines for receiving these special logo plates.

Your vehicle must be registered in Maryland.

Pick up MVA form VR-124 from Captain Arbin.

Fill out form completely.

Attach a check made payable to the Ocean City Beach Patrol Surf Rescue Association (OCBPSRA) for \$50.00. This is a one-time fee and will not be charged again.

If you are requesting a specific number, make sure it is still available.

Return form to Beach Patrol Headquarters. Do not send or take to MVA—the form needs an authorizing signature to process.

Once the VR-124 form and check have been received, it takes 4-6 weeks to receive the tags. They will be mailed to the address on your registration.

In the future, you will receive the regular tag renewal application directly from the MVA every 2 years.

 Subject: Thank you!

Mr. Arbin:

We were in Ocean City, Maryland, this weekend so that our 9 year old daughters could play in the Youth Soccer Tournament that was organized down by the Boardwalk. In the early afternoon of Saturday, June 25th, after the tournament was over, we returned to our hotel room at the Quality Inn Suites Beachfront on 33rd street, put on our swim suits and went swimming out front. Our daughters and their friend played in the waves for a couple of hours and were having lots of fun. Then, all of a sudden, as they were jumping into the waves, they were pulled out away from shore by an undercurrent. It was almost instantaneous. I ran to the water, jumped in and made my way out to the girls. I couldn't feel the bottom of the ocean and I could tell they were both scared. I grabbed our daughter's friend and shoved her toward shore as hard as I could and made my way toward my daughter who was farther out. I grabbed hold of her and began trying to swim back to shore with her. I was struggling, my heart was pounding and I could not seem to make any progress. I knew I couldn't continue much longer. When I looked up two of your lifeguards who were assigned to the Lifeguard stands at 33rd street were there to help. The first one saved our daughter's friend and the other one saved us. Words cannot describe how much I appreciate their help. I am scared to think what might have happened without them. They were remarkable young men. They were professional, courteous and polite. I managed to thank them but I never got their names. Please let them know how much we appreciate what they did for us.

 Subject: Lifetime Adventure

Captain Arbin Sir,

I just wanted to send you a "Hello" and a quick "Thank You!" for the speech that you gave about an "Adventure of a lifetime," during the summer of 2001.

I will always remember the day that I tried out for OCBP. I just thought it would be a cool summer job. I did not know that day would change my life.

I had an amazing summer working for OCBP in 2001 and worked hard that summer to move to San Diego, CA.

I attended the San Diego Regional Lifeguard Academy and began working as a lifeguard out here in California.

From there I decided to serve my country in the United States Coast Guard where I became a Cutter Surface Rescue Swimmer and succeeded to the rate of Aviation Survival Technician (Helicopter Rescue Swimmer).

After serving my out time in the U.S. Coast Guard, I moved back to San Diego and began working for San Diego Lifeguard Fire/ Rescue Service.

This will be my 3rd summer with San Diego Lifeguard Service. I am working diligently to enter the Fire Service in San Diego County and/ or become a permanent lifeguard.

I just wanted to thank you Sir for inspiring me to fulfill my potential as a true waterman as well as being 100% correct about lifeguarding being "the adventure of a lifetime."

I love my job every day and try to inspire people with the same enthusiasm that you portrayed 10 years ago.

Thanks again Captain!

Very Respectfully,  
 Sean C. Hayden
