OCEAN CITY UNIVERSITY

☀ Once a week classes are two hours and offered in two 8-week semesters. One class hour equals one credit. Students can earn a total of 32 credits, which will earn them a Bachelor's Degree in Municipal Citizenship

☀ An advanced degree can be obtained by completing the Citizen's Police Academy for an additional 33 credits. This will earn the student a Master's Degree in Municipal Citizenship.

Ocean City University students tour new state-of-the-art transfer station and recycling center.

**OCEAN CITY
UNIVERSITY**

**TOWN OF OCEAN CITY
SPONSORED CIVIC
EDUCATION PROGRAM
FOR OCEAN CITY
RESIDENTS**

ESTABLISHED 2004

OCEAN CITY UNIVERSITY

☀️ Ocean City University was developed to provide public education and information on government services, public policy, organizational structure and operations. The curriculum covers all facets of municipal government.

☀️ Students enrolled in Ocean City University have a better understanding of the government's role and relationship with its citizens and gives them a sense of ownership in government actions.

☀️ Citizens and government work together to improve the quality of life for Ocean City residents. These informed citizens make a difference in the community.

COURSE OFFERINGS

Week 1 - Freshmen Orientation, History of Ocean City & Government Overview

Offers an introduction to municipal government. Students learn about the council-manager form of government, organizational structure of departments and intergovernmental relationships. Volunteerism on town boards is discussed. Students ride the Boardwalk Train to the

Life-Saving Station Museum for a guided tour.

Week 2 - Finance 101

Students learn about the budget and budget process, how their tax dollars work and gain an understanding of the financial operations of Ocean City.

Week 3 - People, Safety and Insurance

Participants learn about Ocean City's Risk Management Department, safety and self-insurance programs. The Human Resources Department discusses labor and employment issues.

Week 4 - Keeping the Records and Following the Law

Studies the inner workings and duties of the City Clerk's office. The City Solicitor also provides an overview of his position and role in government.

Week 5 - What Makes the City Run

Course looks at the town's purchasing processes, procedures and fleet management. Students learn about Information Technology and what's behind the scenes making everything work. Program includes a tour of the service center and warehouse.

Week 6 - Emergency Services

Studies in this program include a look at Communications, Emergency Management and Emergency Medical Services. Participants also tour the communications center.

Week 7 - When you Call 911, 911 Calls Us

A closer look at fire and police services including the Ocean City Volunteer Fire Co. and Fire Marshal.

Week 8 - REC 101 Studies in Recreation and Sports

Course provides an overview of recreation programs and services. Students learn about all recreation operations including Eagle's Landing Golf Course, Ocean City Tennis Center and Special Events Programs

Week 9 - Planning and Community Development 101

Course covers general duties and responsibilities of Planning and Community Development, including GIS and zoning overview.

Week 10 - Construction and Permits

Students learn about the permit process for building and construction. How the department works and the role of the building inspectors are just some of the topics covered.

Week 11 - Engineering and Environmental Services

Curriculum covers operations of the Engineering Department and duties of the City Engineer. Included is engineering's role in protecting the environment of the Maryland Coastal Bays.

Week 12 - Behind the Scenes - Public Works Operations

Course covers the operations of the Public Works Department from Administration to Maintenance and Construction.
