Employee Evaluations:
Not the Entire Picture

PLEASE NOTE:

Although having satisfactory evaluations is very important, they are only one aspect of each employee's summative performance rating. Employee commendations, incidents, responsibility for equipment, amount of time worked, amount of time taken off during the summer, fulfilling work agreement, and last day worked are all considered by the review panel. Only after a full and complete assessment is made will a final recommendation be made to the Captain regarding an employee's status for the next season

brian_in_search On the first day of 2020 I set out on a journey to do my age in pull ups, push ups and squats every single day.

Ultra marathons, vacations and thunderstorms amongst a plethora of other excuses hasn't broken that streak. I'm stronger physically because of it but more importantly the kids see me do it and they want to get their daily exercise in as well.

Here's a few photos from random places we did pull ups in over the past few weeks. Thanks to the @ocmbeachpatrol for having a pull up bar on the beach for our use!!
