TO	ALL OCFD Personnel
FROM	Fire Chief Richard R. Bowers, Jr. 
SUBJECT	Training Passport

OCFD TRAINING PASSPORT

This FCGO is effective, June 1, 2024 and replaces FCGO 22 - 002

PURPOSE:

The purpose of the OCFD Training Passport procedure will be to track and record the yearly required EMS skills, fire ground tasks, and evolutions that must be completed annually. All personnel are expected to maintain proficiency in the basic job tasks/functions as outlined in NFPA 1582 and by Maryland protocols.

GUIDELINES:

The OCFD Training Passport requires these skills to be demonstrated in the presence of an approved instructor or company officer annually from June 1st until May 31st. The OCFD Training Passport task(s) recording must be completed by the instructor or company officer using the official Training Section Student Sign-in form, per FCGO 24 - 003. Roster to be sent to the BC of Training when the training is completed.

REQUIREMENTS:

The required Fire, Rescue, EMS and FADO tasks and evolutions that must be completed annually are outlined on the training passport schedule (see attached). These specific tasks must be completed in order to be approved as an IDLH SCBA certified Firefighter and/or FADO.

Please see attached Annual Training Passport and schedule.

Note: Failure to successfully complete the required tasks and evolutions as outlined above within the required time frame will result in not being certified as an entry firefighter, driver/operator, or both. Any individual not meeting the requirements will be evaluated on a case by case basis by the Fire Chief.

Saturday, June 1,2024 through Saturday, May 31,2025

Passport Skills- Monthly Schedule
