Instructions

The Town of Ocean City is accepting mini-grant proposals for Beach District Planting. These plantings are for habitat enhancement, water quality improvement and erosion control. Mini-grants will be a maximum of \$150. There will be up to 20 mini-grants offered. Project sites must be located within the corporate limits of the Town of Ocean City. The deadline for submission is February 28, 2018. The **First 20 Mini-Grant Applicants** to submit a **COMPLETE** grant application will be notified by March 1, 2018. Shipment will be April 6, 2018 and all plants must be installed within one week of receipt. Final report must be submitted to Engineering by May 31, which will include photographs and an explanation of the work completed. If you have a project idea, please submit application in the format described below. Submitted applications will be time dated and verified for completeness and eligibility. Once the application is accepted, the Town of Ocean City will notify the applicant of the award. The Town will order the requested plant material and the shipment will be delivered at a predetermined date and location. You will be responsible for the pick-up, installation and maintenance of these plants. The Town will not be responsible for replacement of dead or dying plant or the long-term maintenance.

COMPLETE Proposals must contain:

1. A Project Proposal Application (see attached),
2. Site plan at an appropriate scale showing planting scheme and total square foot planting area, you can contact the Engineering Department for a site plan of your proposed project area if needed,
3. Plant Order List, (see attached form)

The original and one (1) copy should be provided to the Town of Ocean City, Engineering Department for review. Proposals must be received no later than February 28, 2018. (Deadline may be extended if fewer than 20 grant requests are submitted by the due date). Once 20 complete applications are received the grant will be closed and any submission after this time will be put on a waiting list. Please contact Gail Blazer of the Town of Ocean City Engineering Department at (410) 289-8825 if you have any additional questions.

The projects that are been selected are expected to plant the materials within a week of receiving shipment and keep the plants watered and maintained until planted. It is the sole responsibility of the applicant for installation and maintenance and the Town assumes no responsibility toward maintenance, installation or replacement of dead or dying plant material. Some applicants may be asked to give a brief presentation at one of our City Council meeting or work session.
